1) Excitability of the spinal motor neuron pool and F-waves during isometric ipsilateral and contralateral contraction.
Suzuki T, Fujieara T, Takeda I
Physiotherapy Theory and Practice. 9(1) 19-24 1993

2) Relationship between weight-bearing posture and central nervous system function —A silent period study in an upper-extremity—.
Daikuya S, Suzuki T, Hirose H, Nishiguchi S, Fijiwara T
The 8th World Congress of the International Rehabilitation Medical Association (IRMA VIII) 219-223 1997

3) Soleus and gastrocnemius silent periods with or without visual information in natural standing and hemi-standing by dominant leg
Daikuya S, Suzuki T, Hirose H, Nishiguchi S, Tanino Y, H Lee
13th Congress of International Society of Electrophysiology and Kinesiology 685-689, 2000

4) Relationship between the M wave amplitude and the joint movement during repetitive stimulation
Tanino Y, Daikuya S, Hirose H, Nishiguchi S, H. Lee, Suzuki T
13th Congress of International Society of Electrophysiology and Kinesiology 691-694, 2000

5) Évaluation Clinique et Électromyographique De L’effet De L’acupuncture Surles Patients Souffrants De Torticolis Spasmodique
Suzuki T, Tani M, Nabeta R, Wakayama I, Yase Y
Meridians 115 (2) 17-26, 2000

6) Characteristic appearance of the H-reflex and F-wave with increased stimulus intensity in patients with cerebrovascular disease.
7) Effect of continued stretching of the affected arm in patients with cerebrovascular disease by examining H-reflex characteristics.

8) Characteristics of F-wave in different stretched position of the affected arm in patients with cerebrovascular diseases

9) The silent period from soleus and gastrocnemius muscles in relation to conditions of standing.
Daikuya S., Tanino Y., Nishimori T., Takasaki K., and Suzuki T.

10) Test-retest reliability for recording the Erb’s point potential with a change of recording posture.
Daikuya S., Nishimori T., Tanino Y., Takasaki K. and Suzuki T.

Tanino Y., Daikuya S., Nishimori T., Takasaki K. and Suzuki T.

12) H-reflex and reciprocal Ia inhibition after fatiguing isometric voluntary contraction in soleus muscle
Tanino Y., Daikuya S., Nishimori T., Takasaki K., Kanei T. and Suzuki T.
Electromyogr Clin Neurophysiol 44: 473-476, 2004

13) Patterned ground reaction forces and electromyographic activities in the lateral sitting transfers—The influence of trunk forward tilting—
Hirose H, Suzuki T, Shimada T
Bulletin of Health Sciences Kobe 121: 57-64, 2005
14) Excitability of spinal motor neuron function after the transcutaneous electrical stimulation (TES) in healthy subjects –F-wave study–
   Hirose H, Suzuki T, Shimada T
   J Jpn Phys Ther Assoc 9: 17-20, 2006

15) Acupuncture-induced cerebral blood flow responses in dystonia
   Sang Kil Ha-Kawa, Yoshida T, Yague T, Tani M, Suzuki T, Sawada S

16) Acupuncture for Cervical Dystonia
   Makiko Tani, Aya Takada, Hironori Inoue, Toshiaki Suzuki,
   Ikuro Wakayama, Sohei Yoshida, Toshihiko Kinoshita

17) Introduction of the vastus medialis oblique H-reflex during traction of the leg
   Tanino Y, Takasaki K, Daikuya S, Suzuki T.

18) Neuromuscular function after reconstruction of anterior cruciate ligament –A case study using evoked electromyography–
   Daikuya S, Suzuki T, Yabe K

19) The acupuncture treatment of severe axial dystonia
   Tani M, Suzuki T, Takada A, Yagyu T, Kinoshita T
   Journal of Chinese Medicine 87: 5-8, 2008

20) Factors Responsible for Lower Back Pain in Kendo Practitioners
   Kishi S, Morikita I, Takasaki K, Yamaguchi T, Suzuki T

21) Reach Distance and Movement Strategy Patterns During the Functional Reach Test of Psychiatric Patients
   Tanino Y, Yoneda H, Takasaki K, Suzuki T, Watanabe M, Kono K,
   Yokono A, Matsuoka T, Hatashita Y, Kinoshita T
22) Comparison of Motion Strategies in the Functional Reach Test between Elderly Persons and Young Persons
Takasaki K, Tanino Y, Yoneda H, Suzuki T, Watanabe M, Kono K

23) Excitability of Spinal Motor Neurons in the Contralateral Arm during Voluntary Arm Movements of Various Difficulty Levels
Kado N, Ito M, Suzuki T, Ando H

24) Excitability of Spinal Neural Function during Several Motor Imagery Tasks Involving Isometric Opponens Pollicis Activity
Suzuki T, Bunnno Y, Onigata C, Tani M, Uragami S
NeuroRehabilitation 33: 171-176, 2013

25) Combination of Physical and Acupuncture Therapy: Acupoint Stimulation Physical Therapy (ASPT)
Suzuki T, Tani M, Onigata C, Bunnno Y, Yoshida S
International Integrative Medicine 1: 115-118, 2013

26) Excitability of Spinal Neurons During a Short Period of Relaxation Imagery
Suzuki T, Bunnno Y, Onigata C, Tani M, Uragami S
The Open General and Internal Medicine Journal 6: 1-5, 2014

27) Excitability of Spinal Neural Function by Motor Imagery with Isometric Opponens Pollicis Activity: Influence of Vision during Motor Imagery
Suzuki T, Bunnno Y, Onigata C, Tani M, Uragami S
NeuroRehabilitation 34: 725-729, 2014

28) Spinal Reflex Arc Excitability Corresponding to the Vastus Medialis Obliquus and Vastus Medialis Longus Muscle
Tanino Y, Suzuki T
Bunno Y, Yurugi Y, Onigata C, Suzuki T, Iwatsuki H

30) Excitability of Spinal Neurons during Relaxation Imagery for 2 Minutes
Suzuki T, Bunno Y, Onigata C, Tani M, Yoneda H, Yoshida T, Tanino Y, Uragami S
Int J Neurorehabilitation Eng 2014, 1:105

31) Excitability of spinal neural function during motor imagery in Parkinson's disease
Suzuki T, Bunno Y, Onigata C, Tani M, Uragami S, Yoshida S
Functional Neurology 24:263-267, 2014

32) Effect of exercise therapy combining electrical therapy and balance training on functional instability resulting from ankle sprain—focus on stability of jumplanding
Yoshida T, Tanino Y, Suzuki T

33) Excitability of spinal motor neurons during motor imagery of thenar muscle activity under maximal voluntary contractions of 50% and 100%
Bunno Y, Onigata C, Suzuki T

34) Motor imagery muscle contraction strength influences spinal motor neuron excitability and cardiac sympathetic nerve activity
Bunno Y, Suzuki T, Iwatsuki H

35) F-Wave Waveform Values Based On the Correlation Coefficient of Each Waveform Increased Following Improved Voluntary Movements in a Patient with Cerebrovascular Disease: A Case Study with Long-Term Follow-Up.
Todo M, Bunno Y, Suzuki T

37) Mismatched F-Wave Data with Clinical Findings in a Patient with Cerebrovascular Disease.
Suzuki T, Tani M, Bunno Y, Onigata C, Uragami S, Fukumoto Y, Wakayama I, Yoshida S
Austin J Neurol Disord Epilepsy. 3(2):1023, 2016

38) The Imagined Muscle Contraction Strengths did not affect the Changes of Spinal Motor Neurons Excitability
Bunno Y, Onigata C, Suzuki T

39) Effect of motor imagery on excitability of spinal neural function and its impact on the accuracy of movement—considering the point at which subjects subjectively determine the 50%MVC point
Fukumoto Y, Bunno Y, Suzuki T

40) A New Analysis Method of F-Waves to Obtain “F-wave Waveform Values”
Suzuki T, Bunnno Y, Tani M, Onigata C, Fukumoto Y, Todo M, Watanabe H, Ohnuma T, Komatsu N

41) Isometric Contraction of Scapular Muscles Activities during Horizontal Abduction and Adduction of the Shoulder
Ijiri T, Takagi R, Suzuki T
Journal of Novel Physiotherapies 7:2. 2017

42) Effects of Practicing Difficult Movements of the Unilateral Arm on the Excitability
of Spinal Motor Neurons in the Contralateral Arm
Journal of Novel Physiotherapies 7:1.2017

43) Modulation of Excitability of Spinal Neural Functions by Acupoint Stimulation
Physical Therapy at LU5 (Chize) in Three Hemiplegic Patients with Cerebrovascular Disease
Suzuki T, Tani M, Takamori K, Yamada M

44) Importance of Strength Training of the Triceps Surae Muscles for Improvement of Walking Speed in Patients with Subacute Myelo-Optico-Neuropathy
Suzuki T, Yoshida S, Nakayoshi T

45) Examination of center of pressure displacement and muscle activity of the hip girdle muscles on lateral movement in the sitting position, focusing on kinematic features before and after the start of exercise
